## PROFILE

Highly motivated and results-driven intern at Softech Foundation Pvt Ltd , looking to apply backend engineering skills in a challenging and dynamic environment. Recently passed out from Orchid International College. With solid foundations in Mern, Django, React, and Java, as well as a track record of completing over 20+ projects.

## SOME PROJECT

### MERN

- Hotel Management (ordering system, there are four user interface i.e. pre-order customer, normal customer, recipient, and main admin)
- Company website (company details showing information, there are two interface visitor and admin)
- News portal (it also has two interfaces first is visitor and next is admin to post news)

### Python with Django

- Hotel Management (ordering system, there are four user interface i.e. pre-order customer, normal customer, recipient, and main admin)
- To do list (here is simple crud operation to perform to-do app)
- Sustainable energy production prediction (using python with flask server and frontend as the react js)

### Frontend projects using react js and others

- Prabidhi Enterprise Pvt.Ltd (using react js and tailwind)
- Hariyali Abhiyan (using react js and tailwind css)
- Vivo Education Pvt.Ltd (using react js and tailwind css)
- World news using bootstrap and react js
